Projects

Earthbnb – *Rails, React.js, PostgreSQL* • **live** | **github**
A RESTful, single-page app with Flux architecture and a JSON API .

- Incorporates BCrypt and Google OmniAuth for user authentication.
- Integrates Google Maps API for geolocation based searching.
- Stores image uploads in the cloud using AWS, allowing app to scale.

Socket Bot – *JavaScript, Canvas* • **live** | **github**
A platform browser game built with HTML Canvas using Object-Oriented Design.

- Uses HTML5 Canvas for maximum pixel control, creating a detailed gameplay environment.
- Leverages object-oriented design, using inheritance to achieve DRY code.

jExamine – *JavaScript* • **github**
A small library for easy DOM manipulation, event handling, and AJAX requests.

- Abstracts native DOM API into JS objects for optimal ease of use.

Skills

Ruby	JavaScript	React.js	SQL	HTML
Rails	jQuery	Flux	Git	CSS

Experience

Manager of Operations - *Film Movement*   **2010 - 2015** / *New York*

- Designed and built custom business management app using Visual Basic, tripling efficiency of daily operations.
- Used PHP to push data from app to company website's SQL database.

Education

App Academy   **April - July 2016** / *New York*

- 1000-hour full stack web development bootcamp with < 3% acceptance rate.
- Selected as a top student in cohort to work as a TA for incoming students.

New York University   **2002 - 2006** / *New York*

- BFA in Film & Television from Tisch School of the Arts.
