Experience

Full Stack Developer - *Teachable*   **2016 - 2017**

- Rebuilt teachable.com as a content management system so non-developers could add content to the site, increasing speed and efficiency of marketing initiatives.
  - Built with Rails and React.
  - Site utilizes Bootstrap to be fully responsive.
  - Test suite built with Cucumber.
- Helped interview, onboard and mentor subsequent developers.

Manager of Operations - *Film Movement*   **2010 - 2016**

- Designed and built custom business management app using Visual Basic, tripling efficiency of daily operations.
- Used PHP to push data from app to company website's SQL database.

Skills

- JavaScript, jQuery, React
- SQL
- Ruby, Rails
- CSS, SASS, Bootstrap

- Git
- Cucumber Testing Framework

Projects

Socket Bot - *JavaScript (ES2015), Canvas* • live | github
A platform browser game built with HTML Canvas using Object-Oriented Design.

- Uses HTML5 Canvas for pixel control, creating a detailed gameplay environment.
- Leverages object-oriented design, using inheritance to achieve DRY code.
- Transpiled into ES5 with Babel and Webpack for maximum browser support.

jExamine - *JavaScript* • github
A small library for easy DOM manipulation, event handling, and AJAX requests.

- Abstracts native DOM API into JS objects for optimal ease of use.

Education

App Academy   **April - July 2016**

- 1000-hour full stack web development bootcamp with < 3% acceptance rate.
- Selected as a top student in cohort to work as a TA for incoming students.

New York University   **2002 - 2006**

- BFA in Film & Television from Tisch School of the Arts.
